Software Engineering Team Lead | Angular, .Net Core, SQL Server

Software Engineering Team Lead with 5+ years of experience designing and delivering scalable web applications using Angular, .NET Core, and SQL Server. Proven ability to lead small teams, mentor developers, and manage projects through all stages of software development. Skilled in solving complex business problems, implementing modern cloud-based solutions with AWS and Azure, and driving high-impact results across diverse industries. Recognized for technical leadership, collaboration, and a strong commitment to quality and innovation. Currently expanding expertise in architecting cloud-native applications, data-driven solutions, and AI-enabled systems at Pariveda. Passionate about leveraging modern technologies to deliver scalable, efficient, and future-ready software solutions.

Technologies

Languages: TypeScript, JavaScript, C#.

Frameworks & Technologies: Angular (v6–16), .NET Core, ASP.NET, Entity Framework, REST APIs.

Databases & Tools: Microsoft SQL Server, Git/GitHub, Azure DevOps, Visual Studio, Visual Studio Code.

Work Experience

Team Lead, Pariveda – Bogotá, Colombia (Hybrid) November 2025 – Present

- Lead small teams and mentor teammates to grow their technical and professional skills.
- Solve complex business problems for clients across diverse industries.
- Manage projects through all stages of software development, from requirements to delivery.
- Build modern cloud-based and data-driven applications using AWS, Azure, .NET, JavaScript, and other technologies.

Senior Software Engineer, Bizagi – Bogotá, Colombia (remote) May 2023 – October 2025

- Led development teams to deliver high-quality features for enterprise process automation solutions.
- Provided technical leadership through code reviews, mentoring, and architectural guidance.
- Enhanced full-stack web applications, ensuring scalability and performance.
- Recognized as a “Highly Effective Performer,” ranking in the top 5% of Bizagi employees.

Software Engineer, Bizagi – Bogotá, Colombia (remote) Oct 2021 – Apr 2023

- Designed and developed web and mobile applications with Angular, .NET Core, and SQL Server.
- Delivered high-quality solutions that supported Bizagi’s international digital transformation projects.
- Migrated core applications from Angular 6 to Angular 14, boosting performance, maintainability.
- Promoted to Senior Software Engineer in recognition of outstanding performance.

Angular Development Engineer, Global Hitss – Bogotá, Colombia (remote) Feb 2021 – Sep 2021

- Built scalable and responsive interfaces for Claro’s main sales platform, used by thousands daily.
- Developed reusable Angular components to improve maintainability and consistency.
- Optimized UI workflows to improve usability and boost productivity for sales representatives.

Junior Development Engineer, SoftwareOne – Bogotá, Colombia Feb 2020 – Jan 2021

- Contributed to Banco Agrario’s fintech project, developing web applications that improved digital loan services for farmers across Colombia.
- Built reusable Angular components and responsive UIs, enhancing scalability and user experience.
- Implemented backend logic with .NET Core and SQL Server queries to ensure performance and reliability.

Software Engineering Intern, SoftwareOne – Bogotá, Colombia

Aug 2019 – Feb 2020

- Developed and optimized responsive Angular components for Banco Agrario's digital lending platform.
- Collaborated effectively with senior developers in agile enterprise fintech projects.
- Earned a promotion to Junior Development Engineer in recognition of strong performance.

Education

Universidad Distrital Francisco José de Caldas, BS in Electronic Engineering

Jan 2014 – Aug 2020

- Graduated as an Electronic Engineer with emphasis in software development, gaining strong foundations in programming.
